Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/06/09 has been entered. Applicant's amendment has necessitated the withdrawal of the previous rejections under 35 U.S.C 101, and 35 U.S.C first and second paragraphs.

Allowable Subject Matter

Claims 12, 14-16, 18-27, 32, and 33 are allowable over the prior arts. Claims 12, 14-6, 18-27 are allowed on the merit. However, claim 32 and 33 stand rejected, in this office action, under 35 U.S.C 112th first, paragraph.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 32 and 33 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The applicant recites at least one processor operable to access the at least one memory and execute stored instructions to carry out

specific steps as recited in claim 32. However, the specification as originally filed does not provide support for this limitation. Clarification is required.
